

**Lansing Eastern High School Alumni Association Board Meeting
Tuesday, July 14, 2015, 4:00 PM**

Meeting Report - Draft

Attending the meeting were: Louis Hekhuis, Letha Collins, Christine Hall, Guil Northrup, David Cushion, Judy Williams, Jeri Haber and Lynne Martinez.

Lou presented information on the July 9, 2015 Meeting of the Lansing School District Board of Education. Superintendent Yvonne Caamal- Canul presented the Report and Preliminary Recommendations of the Bond Committee to the Board of Education.

Lou and Jack attended the meeting. Nancy Mahlow attended as co-chair of the Bond Committee. After the meeting Jack and Lou developed a draft request for additional information to be sent by the Alumni Association to the Superintendent and Board of Education members.

There was discussion of the proposed letter. Some changes in language were suggested. A final version was approved, pending agreement from Jack. The text of the final draft letter is:

Dear Superintendent Caamal-Canul:

The Eastern Alumni group has had an opportunity to review the RFP regarding Lansing Eastern High School. We note that the developer would be entitled to the Eastern premises sometime between a current date and 5 years. We would like to know what is the backup plan for the school district and the Pathway Promise should the bond proposal not pass in May 2016 and there is no funding for the development of the new Eastern High School?

We are also inquiring what provision will be made in the arrangements with the developer. It would seem to us that a further condition would be that if there is no feasibility for relocating Eastern at the Pattengill site, that the District would have the option to terminate the arrangements. Please let us know what the plan would be regarding the RFP if the bond is not approved in May 2016.

Thank you.
Louis Hekhuis
